Request for Expressions of Interest for Provision of Consulting
Services (Firms Selection)

Subject:	Engagement of a Consulting Firm to undertake a Survey on Abandoned Vehicle Shells and Associated Metal Objects in Harare and Bulawayo
Brief Description:	Expression of Interest for Engagement of a Consulting Firm to undertake a Survey on Abandoned Vehicle Shells and Associated Metal Objects in Harare and Bulawayo
Proposal Reference Number:	IDBZ 132 of 2021

Section I

On 28th October, 2020, an article from the United Nations Environment Programme (UNEP) highlighting the challenges faced by developing countries in disposing shells of millions of used cars, vans and minibuses exported from Europe, the US, Singapore, and Japan was shared with the Infrastructure Development Bank of Zimbabwe (IDBZ), therein after referred to as the Bank. The article highlighted that the vehicles exported to developing countries are of poor mechanical condition and quality, a major contributor to air pollution and climate change. At the end of their life span, or when they are damaged beyond repair through accidents, the vehicle shells are mostly abandoned in homes, garages and along highways.

In Zimbabwe, abandoned vehicle shells, mainly a result of road accidents is a common sight on the country’s highways. Other areas where abandoned vehicles can be seen include public car parks, garages, along roads in residential areas and highways, people’s residences in both urban and rural areas. This points to a real dilemma associated with disposal of the shells in Zimbabwe. There is need for a sustainable solution to the current haphazard disposal of car shells and the associated negative aesthetic, environmental and social impacts.

The extent of the problem of abandoned vehicle shells and associated metal objects in Zimbabwe is not documented and as such it is difficult to estimate the magnitude of the problem. In view of this, the Bank is sponsoring a survey to establish the extent of the problem in Harare and Bulawayo, and the highway between the two cities. The survey is expected to come up with an inventory of the abandoned vehicles and objects in each of the two cities. The data will be used to find alternative ways to sustainably manage the challenge of abandoned vehicles and objects in Zimbabwe.

Geographic Location of the Project

The proposed survey will be done in Harare and Bulawayo Metropolitan Provinces and will also cover the entire highway between the two cities, accounting for any such shells and related metal objects on roadsides.

Objectives of the Survey

The purpose of the survey is to determine the extent of the problem of abandoned vehicle shells and associated metal objects in Zimbabwe using Harare and Bulawayo as case studies. The specific objectives are:

- (a) To determine the policy position of the two (2) cities with regards to the handling and disposal of vehicle shells and associated metal objects.
- (b) To develop a comprehensive inventory of players, both formal and informal, in the scrap metal industry in the two (2) cities and investigate their capacity to recover and recycle/reuse vehicle shells and associated metal objects.
- (c) To determine the extent of the abandoned vehicle shells and associated metal objects problem in each of the two (2) cities.
- (d) To investigate the nature of environmental and social impacts associated with abandoned vehicle shells and associated metal objects.
- (e) To make recommendations on how the IDBZ can intervene to bring about a sustainable solution to the problem in the two (2) cities and at national level.

Knowledge generated from this survey is expected to help rid the environment of the vehicle shell and metal objects menace while at the same time creating a livelihood for some people.

Scope of Assignment

The following are the terms of reference for the study:

- **Development of an appropriate study methodology**—The Consultant will develop an appropriate study methodology (including the key assumptions) and survey instruments which will enable the determination of the extent of the problem in the two cities.
- **Conducting the survey**—The Consultant will carry out the study based on the proposed methodology.
- **Stakeholder consultation**—The Consultant shall undertake a gender inclusive stakeholder consultation involving the two (2) local authorities, relevant Government departments, parastatals, businesses, and business associations dealing with metal waste. A preliminary list of stakeholders for the survey should be included in the technical proposal.
- **Reporting**—The Consultant will compile a report with findings of the study including an inventory of the vehicle and metal waste, opportunities, and action plan for addressing the challenge of abandoned vehicle shells and associated metal objects.

GOVERNMENT GAZETTE

Conditions of Acceptance of Copy

FAILURE to comply with any of the following conditions will result in the rejection of copy, and no responsibility can be accepted if such rejection should affect any date contained in such copy or any requirement of publication on a specific date.

Persons drafting any kind of notices are strongly advised to follow the guidance offered in—

- (a) the Instructions Relating to the Drafting and Typing of Legislation (Attorney-General's Circular 1 of 1978); and
- (b) the Manual of Style for the Drafting and Preparation of copy published by Printflow (Private) Limited;

which two booklets are intended for complementary use.

In these conditions, other than where a particular kind of copy is specified, "copy" means copy for all matter contained in the *Gazette* itself and for subsidiary legislation issued as supplements to the *Gazette*.

1. (1) Other than by prior arrangements, only original typing is accepted.

(2) Carbon-copies are not normally acceptable, other than in cases where the original typing has to be legally retained, elsewhere, as, for example, in the case of a proclamation.

(3) Computer print-outs are not accepted automatically, as discussion may be necessary with regard to the extra time and costs involved.

2. (1) All copy must be clear and legible, and there must be double or one and a half spacing between the lines.

(2) Any corrections or alterations made by the originator, must be clearly effected in blue or black ink, using editorial marks—not proof-reader's marks:

Provided that any copy containing extensive alterations will be rejected.

3. (1) Copy must appear on one side only of each sheet of paper.

(2) Except as is provided in subsection (2) of section 8, paper must not exceed 210 millimetres in width.

(3) If copy comprises two or more sheets of paper, all sheets must be numbered consecutively, in arabic figures, preferably in the top right-hand corner.

(4) Where any matter is added after the copy has been prepared, and such additional matter results in one or more sheets being inserted between those already numbered, all sheets must be renumbered from there onwards—not, for instance 7, 7b, 8, *et cetera*.

4. Photographic copy or copy produced on a duplicating machine may be accepted if it is abundantly clear.

5. (1) Should any copy—

- (a) exceed 10 pages of double-spaced typing on size A4 paper; or
- (b) contain tabular or other matter which involves complicated setting; it will be classed as “lengthy” copy, and will be required to be submitted not less than 21 days before the date of closing for the *Gazette* in which it is to be published.

(2) Lengthy copy may be accepted at less than 21 days' notice if—

- (a) the work involved is of a straight forward and non-tabular nature; and
- (b) the total volume of work on hand for the time being permits its acceptance.

6. Notwithstanding anything to the contrary contained in these conditions, any copy—

- (a) which is of national importance, and which is originated as a matter of urgent necessity, may, by prior arrangement, be accepted late for the current week;
- (b) may, due to shortage of staff or to technical considerations, be delayed until conditions permit its processing.

7. Copy must not be submitted as part of a letter or a requisition. It must appear on a separate sheet of paper, on which there is no instruction or other extraneous matter.

8. (1) In cases where notices have to be published in tabular form, copy must be drafted exactly as it is to appear. If printed forms for any such notices are unavailable, advertisers must prepare their own forms. While it is not necessary to include the preamble, the box-headings must be there, and, where applicable, the number of the form; for example, “Insolvency Regulations—Form 3”.

(2) In the case of copy for tabular notices, the provision of subsection (2) of section 3 does not apply.

9. Copy for all advertisements, whether sent by post or delivered by hand, must be accompanied by a requisition or a letter which clearly sets out—

- (a) the name and address of the advertiser; and
- (b) the debtor's code number, if any; and
- (c) the required date or dates of publication.

10. If a typographical error occurs in the *Gazette*, it is rectified as soon as possible by a correcting notice without charge to the ministry or department concerned, subject to the following conditions—

- (a) that such error is reported to the editor within three months from the date of publication; and

(b) that the relevant copy, upon re-examination, is proved to be abundantly clear; and

(c) that the correction of such error is legally necessary.

(2) If a drafting error is not detected before publication, the originating ministry or department is required to draft its own correcting notice, take it to the Attorney-General for vetting and pay for such notice to be published.

(3) For the removal of doubt—

- (a) a typographical error is made by a typographer;
- (b) a typist's error is classed as a drafting error by reason of the fact that the officer responsible for drafting failed to check the typist's work.

GOVERNMENT GAZETTE

Submission of Copy for Government *Gazette* Statutory Instruments and Notices

IT is hereby notified, for general information, that it is necessary to draw attention to the “Conditions for Acceptance of Copy”, which

appears in every issue of the *Gazette*; and particularly the need to submit lengthy copy, in the case of Statutory Instruments, at least 21 days before the date of closing for the *Gazette* in which the notice is to be published.

During the past few months or so there have been many cases where urgent copy for subsidiary legislation, which requires the signature of the President or a minister to give it effect, and which is of national importance, has been sent in for publication in the *Gazette* after closing-time. Whilst I acknowledge that it is the duty of Printflow (Private) Limited to give certain notices special treatment, I am, however, of the view that a *Gazette* Extraordinary has tended to be a must rather than a matter of priority in respect of unwarranted delays of urgent copy.

While every effort will continue to be made to publish Extraordinaries on the required dates, copy must be submitted timeously so that it can be programmed into the printing-work-flow as soon as it is available.

H. MATINGWINA,
Gazette Editor.
